This home is truly sensational. Wide open spaces, high ceilings and quality finishes throughout. From the foyer you look through to the family room that features a gas log fireplace with built in cabinets on either side and lots of glass on the back wall. The formal dining is on the left and has a tray ceiling and chair rail. The kitchen is huge. It is finished with quartz counter tops, tile back-splash, six burner gas cooking and a generous pantry. There is ample cabinet space for storage and plenty of counter space for food preparation. The eating area is like a sun room with loads of natural light. This floor plan has the master bedroom separated from the others for privacy. Master Bedroom Suite has an elegant bath with large tile shower. There are two other bedrooms on the first level and then a surprise game room and additional bedroom upstairs with full bath. No shortage of storage here. Also, whole house generator, encapsulated crawl, and a retractable awning on the deck. So many updates and upgrades ... like moving into a brand new home.
